SKILLS

- ⊙ Frontend & Backend Development
- ⊙ Coding Languages
- ⊙ Attention to detail
- ⊙ Logical Approach
- ⊙ Creative Ability

EDUCATION

Systems Engineer
Minuto De Dios | 2022-2024
Bogota - Colombia

Computer Technology
Minuto De Dios | 2016-2018
Bogota - Colombia

ABOUT ME

I'm a full-stack developer with a curious mind and a passion for technology. I love building web products that solve real-world problems and improve people's lives. I'm a quick learner and I'm always excited about exploring new technologies and frameworks. I'm currently seeking a challenging role at a company where I can apply my skills and continue to grow professionally.

EXPERIENCE

Senior Software Developer
PersonalSoft
Aug 2023 - May 2024

As a developer, I create and manage data structures within an application. I develop interfaces that connect the frontend and backend, optimizing performance and ensuring data security. Additionally, I collaborate with team members to implement features and user stories

Tools
Java SE- Poo - P- funtional SpringBoot - Jpa - Jwt - Mockito-junit5 - mutation text- Rabbitmq - GitHub - PostgreSql - DynamoBd - Aws (secret manger, s3 , ecs, - Redis- Azure.

Bckend Developer Java
Valid Col
Jul 2022 - Jun 2023

As a developer, I helped with the maintenance of the application, provided security to the application, contributed to new microservices, collaborated on infrastructure, and worked on new cloud components. I was also deploying several services to production with Docker Compose.

Tools
